

Krish Jain

+91 8849096412 ✉ krishjain641@gmail.com  LinkedIn  GitHub

Profile Summary

- **High-Performance Full-Stack Developer** specialized in architecting scalable communication-centric ecosystems and high-availability enterprise platforms.
- Expert in **End-to-End System Ownership**, from Google-certified UI/UX conceptualization to robust **Azure CI/CD** cloud orchestration.
- Proven ability to **resolve complex technical bottlenecks** and harden system security using advanced cryptographic hashing (Argon2/SHA-512) and optimized database strategies.

Education

L.J. Institute of Computer Applications, Ahmedabad

Integrated Master of Computer Applications (BCA+MCA)

Amrut High School, Ahmedabad

Higher Secondary Certificate (Commerce)

Expected May 2027

CGPA: 8.68 / 10.0

2022

Technical Skills

Languages: Python, Dart, JavaScript, Java, Kotlin, PHP, SQL, PL/SQL

Frontend: Flutter (GetX), React, TailwindCSS, Responsive Design, HTML5, CSS3

Backend: Django, Flask, Node.js, Laravel, RESTful API Design

Database: PostgreSQL (**Advanced Indexing & Optimization**), MongoDB, SQL Server

DevOps/Cloud: Azure DevOps (Pipelines), AWS, CI/CD Automation

Integrations: Unified Messaging (SendGrid & GupShup), Firebase FCM, REST APIs

Security: Argon2, SHA-512, OAuth2, OTP-based Auth, Secure Recovery

Experience

Flutter Developer

JVS Technologies

Nov 2025 – Present

Ahmedabad

- **Architected a centralized messaging middleware** by unifying **SendGrid (Email)** and **GupShup (WhatsApp/SMS)**, ensuring 99.9% deliverability for critical transactional alerts.
- **Resolved high-concurrency bottlenecks** by optimizing PostgreSQL query logic and implementing advanced indexing, reducing database response times for enterprise modules.
- **Streamlined deployment workflows** via **Azure CI/CD Pipelines**, automating testing and release cycles to ensure zero-downtime updates and build stability.
- **Hardened application security** through **Argon2 and SHA-512** implementation, establishing industry-standard protection against brute-force and credential-stuffing attacks.
- **Engineered responsive cross-platform frontends** using Flutter, achieving sub-second rendering and a unified user experience across web and mobile.

Flutter Developer

Cognisun Infotech

Jan 2025 – Oct 2025

Ahmedabad

- **Spearheaded the release of 5+ production apps** on the **Google Play Store**, managing the full lifecycle from code architecture to store optimization.
- **Engineered AI-integrated modules**, including a Face Registration & Attendance system and a Task Management portal handling 1000+ active user sessions.
- **Enhanced security protocols** by implementing robust multi-factor authentication flows, reducing unauthorized access vulnerabilities by 15%.

Key Projects

- **DharmStay: High-Performance Booking Ecosystem** (Flutter, Flask, Google Cloud, Redis)
 - Integrated **Google Cloud Custom Search API** to engineer an automated visual enrichment engine, dynamically resolving missing database records by fetching real-time architectural imagery.
 - Architected a robust backend with **Redis** for state persistence, managing high-concurrency room holds and caching API-driven image results to reduce latency and operational costs.
 - Developed a seamless **Flutter** frontend utilizing asynchronous fallback logic and deferred loading, achieving a 75% reduction in initial bundle size for optimized web performance.
 - Automated deployment pipelines using **Azure DevOps**, implementing build-stage sanity checks to verify API integrity and database connectivity before production release.
- **Flutter Weather Intelligence** (Flutter, REST API)

 Repo

- Integrated live GIS data for real-time forecasting, utilizing advanced **state management** for zero-latency UI performance.
- **Enterprise Bike Rental Engine** (Laravel, PHP)  [Repo](#)
 - Developed a dynamic reservation platform with **mock payment integration** and real-time inventory tracking.
- **Pet Shop Management System** (Django, JavaScript)  [Repo](#)
 - Engineered **full-stack billing automation**, comprehensive admin panels, and optimized pet-search algorithms.

Achievements & Certifications

- **Academic Distinction: 2nd Rank Topper** in school for XII (2022); **3rd Rank** university-wide in overall BCA; Top 3 Ranker (Semesters 4 & 6).
- **Batch Topper (Coursera 2024):** Ranked #1 for course completions out of 400 peers.
- **Elite Certifications:** Google UI/UX Professional, IBM SQL, NYU Cybersecurity, DeepLearning.AI GenAI.
